Basil
The robust anise flavor of basil enhances vegetables, pasta, pizza and soup. To retain its bright color, slice or chop basil at the last moment and add to dishes right before serving.

Walk through your front door every day. Afraid you might be wearing blinders? Have someone you trust do this for you on a regular basis. They might see what you aren't noticing.

Know when to dump plants. And do it. Bad displays deter sales

Media & Online Presence

Are the photos good quality? Will they entice potential customers to visit your garden center?

Is your name prominent? Contact information correct?

Check for spelling & grammar errors.

Is your website easy to navigate?

Is your site kept current? Do you change photos with the seasons?
